

## School Profile

**School name:** Garden International School, Rayong  
**Country:** Thailand  
**Teacher:** Line Turagaiviu

“  
I would definitely say that it is easy to use, engaging and provides challenge for learners  
”

## Tell us a bit about your School and Class

Garden International School (GIS) Rayong is located on the Eastern Seaboard of Thailand and teaches around 400 students across both primary and secondary. The school is a British curriculum school where students complete the IGCSE exams and then move on to complete the IB Diploma programme.

## How long have you been using MyiMaths?

The school has been using MyiMaths for about 8 years now and there have been significant changes to MyiMaths in terms of including curriculum such as the IB courses. Newer topics have been added to match and align MyiMaths to the types of international curriculums that schools offer. The range of maths skills caters for students from primary to secondary and this definitely displays the range of tasks, lessons, games, online worksheets and games that students can enjoy throughout their learning in maths.

## How do you use MyiMaths?

We use MyiMaths for illustrations during lessons, student guidance for independent learning, homework and now with the inclusion of video tutorials, this has greatly boosted the impact MyiMaths has towards students wanting to hone their skills in specific areas of the subject.

## What would you say to other schools?

It saves time marking assessments or homework! You can provide personalized feedback to students to support their learning and progress, and the curriculum filters make it easier to identify the appropriate tasks and questions that can be used for classes you are teaching. I would definitely say that it is easy to use, engaging and provides challenge for learners.

## Have you noticed a difference in your students' enjoyment of studying maths since using MyiMaths?

All students at GIS enjoy MyiMaths and are always eager to be assigned in-class tasks or homework tasks on MyiMaths.

## Would you recommend MyiMaths to other teachers?

Yes – I highly recommend MyiMaths to all maths teachers. It contains a range of maths problems and lessons that are engaging, fun and easy to access.
